

GemCoreTM
by REWARD

STONE COMPOSITE FLOORING
MADE WITH OVER **60%** STONE!

WHAT IS GEMCORE™?

GemCore™ by Reward® is hybrid flooring with new stone composite core technology designed to be 100% waterproof and highly resistant to indentation and temperature extremes - compare our test result (ASTM 2199) to the competition. Made with over **60%** stone, GemCore™ is more stable and more dent resistant than WPC, LVT and laminate! Put our dent resistance to the test - use a hammer to compare!

Let's take a look under the hood, to see what GemCore™ is made of!

1 Quartz Enhanced Acrylic Coating

Mineral-enhanced finish provides an extreme layer of durability proven to resist shoe scuffs, kids toys and even pet claw marks!

2 Decorative Layer

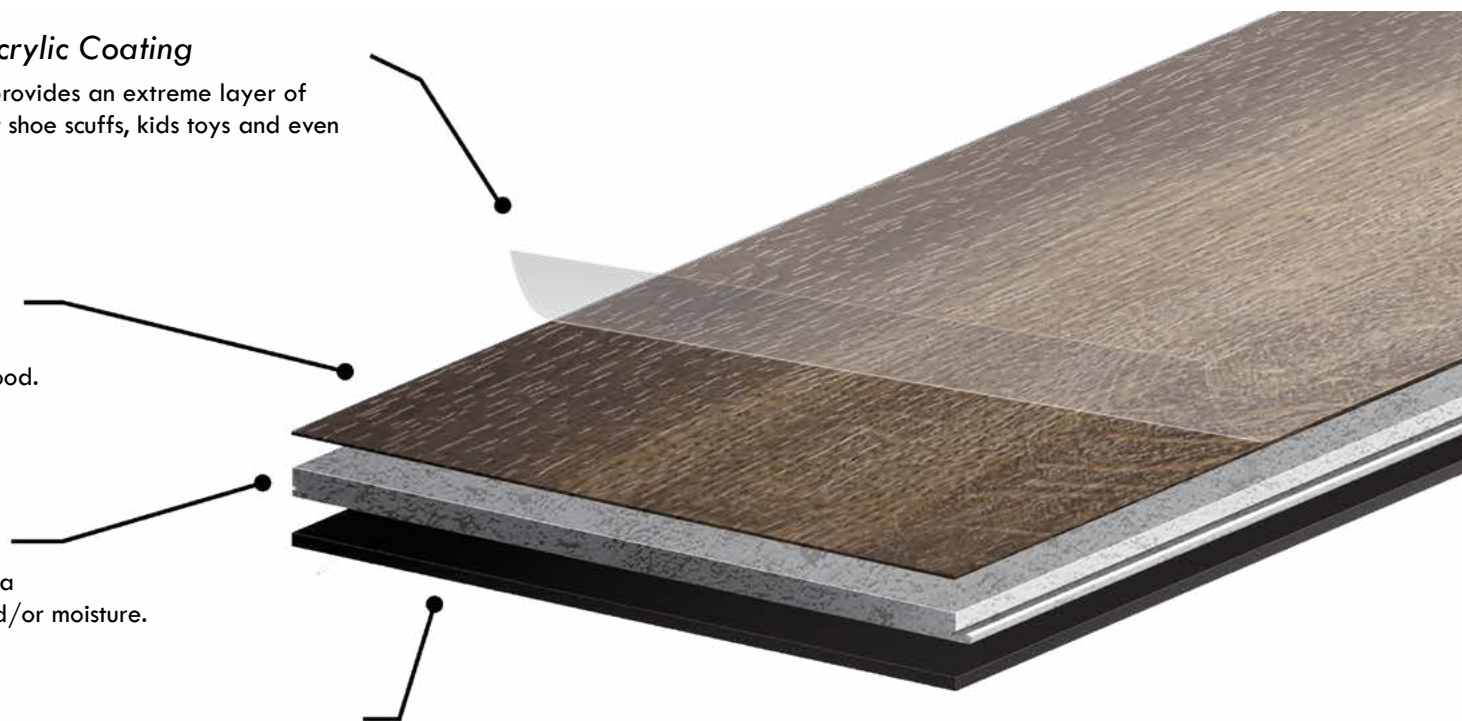

Combines state-of-the-art print and emboss technology for the look and feel of natural wood.

3 Rigid GemCore™ Substrate

Ideal for intense commercial applications and a perfect solution for areas exposed to heat and/or moisture.

4 Anti-Microbial Pre-attached Backing

The pre-attached non-toxic underlayment pad makes installation fast and easy, with enhanced sound performance.

SAFE FOR YOUR FAMILY

Breathe easily knowing that GemCore™ contains absolutely no formaldehyde, ortho-phthalates or other toxic airborne chemicals. GemCore™ floors have earned a Floorscore Certification from SCS Global, a trusted third party industry leader in environmental sustainability.

QUICKLY INSTALLS OVER MOST EXISTING FLOORS

Easy tap-down glueless installation. Can be installed over wood or laminate, stone or cement, and vinyl or tile.

WOOD OR LAMINATE

STONE OR CEMENT

VINYL OR TILE

RIGID & WATERPROOF

GemCore™ can be wet mopped for easy maintenance and it remains flat even in high heat & high humidity. It is perfect for bathrooms, kitchens, laundry rooms & sunny areas.

THE CHOICE FOR MULTI-FAMILY AND HOSPITALITY PROJECTS

GemCore™ is the superior flooring choice for demanding environments and tight schedules. Get the look you want with the durability, speed of installation, and value you need. Waterproof, highly dent-resistant, and dimensionally stable. Suitable for common areas, bathrooms, laundry rooms, and most recreation areas. No acclimation required.
